

**Everest discontinues INTERNAL Plan to Lessor Plan Conversions**

**Effective Immediately**, Everest will no longer accept any application in the state of Missouri on an existing Everest policyholder attempting to switch from their current plan to a lessor plan on a guarantee issue basis (i.e., INTERNAL conversions).

We are in the process of updating the Missouri Guarantee Issue Checklist (GI Checklist) that is accessible on our supply website. Once available, we will provide notice accordingly.

NOTE: As of today, if an existing Everest policyholder wishes to switch to a lessor plan (i.e., Plan F to Plan G), the lessor plan application will be subject to underwriting.

*We apologize for this sudden notice and any inconvenience it may cause.*

Ongoing discussions are also taking place regarding other potential changes to our Missouri Medicare supplement program and we will provide updates as soon as possible.
